

Santa Clara County
Open Space Authority

R-10-36
Meeting 10-12
June 24, 2010

AGENDA ITEM #2

To: Board of Directors
Open Space Authority

From: Patrick Congdon
General Manager

SUBJECT

Public Hearing and Approval of the Engineer's Report & Levying the Annual Assessment for Open Space Acquisition & Maintenance District No. 1 – Renewal for Fiscal Year 2010/2011

RECOMMENDATION

It is recommended that the Board conduct a Public Hearing regarding the renewal of the levying of this annual assessment, with no change to its levy.

After making any revisions, it is further recommended that the Board formally adopt a resolution approving the Engineer's Report and renewing this assessment.

COST/REVENUE

By approving this item, the Authority will use the funds collected for the acquisition and preservation of open space within the Authority's boundaries.

BACKGROUND

In 1994, the Santa Clara County Open Space Authority created the "Open Space Acquisition & Maintenance District No. 1". The Board annually considers this assessment and the projects for which the assessment district was created.

This District may acquire, develop and maintain land, trails, natural areas and other facilities for public use as allowed under the Santa Clara County Open Space Act and reimburse the Authority for incidental costs associated with the District.

On May 27, 2010, the Board reviewed the District 1 draft Engineer's Report for fiscal year 2010/2011. No corrections were made and the Board accepted the preliminary Engineer's Report, declared its intention to levy an annual assessment, and called a public hearing to receive comment, objections or protest before the Board gives final approval to the Engineer's Report and the levy of the assessments. Appropriate Notices have been made for this meeting.
