Contract Approval Policy

The Santa Clara County Open Space Authority’s enabling act authorizes the Authority to contract with any person or public agency for any services, supplies equipment or materials. (Public Resources Code § 35159). This Policy provides guidance on the implementation of section 35159.

A. PREPARATION OF DOCUMENTS

Prior to presentation to the Board of contracts requiring Board approval, the General Manager is authorized to prepare requests for proposals, proposed contracts, specifications or other descriptions of work and to obtain required competitive bids or negotiated agreements for any project, improvement, or consultant service. Authority counsel shall review all written contracts for form and legality.

B. CONTRACT PROCEDURES

1. General Competitive Bidding Requirements

Subject to the exceptions enumerated in this Policy, contracts for supplies, equipment or materials exceeding $25,000 shall be contracted for and let to the lowest responsible bidder and approved by the Board. Contracts greater than $25,000 but not exceeding $75,000 shall be let by informal bidding procedures, and contracts for greater than $75,000 shall be let by formal bidding procedures. Contracts of $25,000 or less may be approved by the General Manager without following the competitive bidding requirements set forth in this Policy.

a. Bidding Procedures:

i) Formal Bidding Procedures: a notice inviting bids shall be published at least twice, at least five days apart, in a newspaper of general circulation within the Authority’s jurisdiction. The first publication shall be published at least 10 days before the date of opening of bids. The notice shall also be posted on the Authority’s official website and at the Authority’s Administration Office. The notice shall state the following: (1) the date of the opening of bids; (2) the nature of the contract; (3) the specifications and requirements that must be contained in any submitted proposal in order to be considered responsive to the Request for Proposals; and, (4) that the bid packet, including the Request for
Proposals, may be obtained by prospective bidders from the Authority’s offices or on the Authority’s official website. All bids received shall be opened by the General Manager and other manager or supervising employee on the date stated in the notice. After the bids are opened, the General Manager shall make a recommendation to the Board for approval of a bid that is consistent with Public Resources Code § 35159 and this Policy.

ii) Informal Bidding Procedures: a notice inviting bids shall be posted on the Authority’s official website and at the Authority’s Administration Office. The notice shall state the deadline by which bids must be submitted. The General Manager may provide notice to any potential bidders that it knows provides the supplies, equipment or materials sought. The General Manager must attempt to solicit at least three written bids, or an explanation of why three bids were not submitted. The General Manager shall make a recommendation to the Board for approval of a bid that is consistent with Public Resources Code § 35159 and this Policy.

b. Rejection of Bids: The Board may reject all bids. If the Board rejects all bids, it may either readvertise for proposals, or adopt a resolution, by four-fifths vote, declaring that the contract can be performed more economically by the employees of the Authority or obtained at a lower price on the open market.

c. No Bids Submitted in Response to Notice Inviting Bids: If the Authority does not receive any bids, the Board may undertake the project without complying with the requirements of this section B.1.

d. Emergencies: In the case of an emergency, the governing board may adopt a resolution by a two-thirds vote of all the members of the governing board declaring that the public interest and necessity demand immediate expenditure of public money to safeguard life, health, or property. The governing board may expend any sum required in the emergency without submitting the expenditure to bid. An “emergency” is a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services. “Emergency” includes a fire, flood, earthquake, or other soil or geologic movements, as a riot, accident, or sabotage.

2. Special Procedures for Procurement of Services

Contracts for services exceeding twenty-five thousand dollars ($25,000) shall follow the procedures outlined in section B, but are not subject to the lowest responsible bidding requirements if the Board awards the contract to the most “responsible and qualified bidder.”

a) Determination of the “Most Responsible and Qualified Bidder.”

i) “Most responsible and qualified bidder” means the bidder deemed by the Board that best fits the needs of the service contract, or the Board
Santa Clara County Open Space Authority

makes a determination using the following criteria, including but not limited to:

(1) Experience of the bidder as a firm, including past performance of the firm on contracts of similar size and scope;
(2) Experience and qualifications of personnel employed by the bidder;
(3) Demonstrated understanding of the scope of the service, including schedule and plan to accomplish the service;
(4) Best overall financial return to the governing board on the contract; and,
(5) A responsible bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, and experience to satisfactorily perform the work or provide the goods required.

b) Additional Procedures for Specific Services. The General Manager shall follow these additional procedures for contracts exceeding $25,000 for architectural, landscape architectural, engineering, environmental, land surveying, and construction project management services.

i) Definitions.

(1) "Architectural, landscape architectural, engineering, environmental, and land surveying services" includes those professional services of an architectural, landscape architectural, engineering, environmental, or land surveying nature as well as incidental services that members of these professions and those in their employ may logically or justifiably perform.

(2) "Construction project management" means those services provided by a licensed architect, registered engineer, or licensed general contractor which meet the requirements of Government Code § 4529.5 for management and supervision of work performed on state construction projects.

(3) "Environmental services" means those services performed in connection with project development and permit processing in order to comply with federal and state environmental laws.

ii) The General Manager shall post a Request for Qualifications to perform the required services for a proposed project on the Authority’s official website and at the Authority’s Administration Office. The General Manager may inform any potential contractors of the notice, and may
contact any of the contractors the General Manager has prequalified as provided in section 2.c) of this Policy. Any individual or firm proposing to provide construction project management services shall provide evidence that the individual or firm and its personnel carrying out onsite responsibilities have expertise and experience in construction project design review and evaluation, construction mobilization and supervision, bid evaluation, project scheduling, cost-benefit analysis, claims review and negotiation, and general management and administration of a construction project.

iii) For each proposed project, the General Manager shall evaluate current statements of qualifications and performance data of prequalified contractors, if any, on file with the Authority, together with those that may be submitted by other contractors regarding the proposed project, and shall conduct discussions with no less than three contractors regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required services and then shall select therefrom, in order of preference, based upon criteria established and published by him or her, no less than three of the contractors deemed to be the most responsible and qualified to provide the services required.

iv) The General Manager shall negotiate a contract with the most responsible and qualified contractor at compensation which the General Manager determines is fair and reasonable to the Authority. The contractor shall be informed that the contract is subject to final approval by the Board. Should the General Manager be unable to negotiate a satisfactory contract with the contractor considered to be the most responsible and qualified, at a price the General Manager determines to be fair and reasonable to the Authority, negotiations with that contractor shall be formally terminated. The General Manager shall then undertake negotiations with the second most responsible and qualified contractor. Failing accord with the second most responsible and qualified contractor, the General Manager shall terminate negotiations. The General Manager shall then undertake negotiations with the third most qualified contractor. Should the General Manager be unable to negotiate a satisfactory contract with any of the selected contractors, the General Manager shall select additional contractors in order of their competence and qualification and continue negotiations in accordance with this chapter until an agreement is reached.

v) The contract must be finally approved by the Board in accordance with section 2.a).

c) Prequalification of Contractors

The General Manager may prequalify contractors to maintain a list of qualified contractors for future proposals. If the General Manager chooses
to prequalify contractors, the General Manager shall establish and publish on the Authority’s website a list of relevant general criteria which will form the basis for adding such contractors to a list of pre-qualified contractors maintained by the Authority. The general criteria shall include such factors as professional excellence, demonstrated competence, specialized experience of the contractor, education and experience of key personnel to be assigned, staff capability, workload, ability to meet schedules, nature and quality of completed work, reliability and continuity of the contractor, familiarity with pertinent regulatory processes, previous experience with a specific type of project, and other considerations deemed relevant by the General Manager.

d) Conflict of Interest/Unlawful Activity Prohibited

Any practice which might result in unlawful activity, including, but not limited to, rebates, kickbacks, or other unlawful consideration, is strictly prohibited, and each Authority employee is specifically prohibited from participating in the negotiation or selection process when that employee has an interest in, or has a personal or business relationship with a person affiliated with, any person or business entity seeking a contract with the Authority or solicited by the Authority for such a contract which would subject that employee to the prohibition of Section 87100 of the Government Code.

C. CONTRACT CHANGE ORDERS

The General Manager may approve change orders to contracts, provided that the net aggregate of all change orders to that contract, exclusive of additional authorization by the Board, does not exceed 15 percent of the original contract price up to a maximum of $10,000.
Appendix I: California Public Resources Code, Section 35159

35159. (a) The governing board may contract with any person or public agency for any services, supplies, equipment, or materials, or for the construction or completion of any building, structure, or improvement.

(b) (1) Notwithstanding any other laws, a contract for any supplies, equipment, or materials, that exceeds twenty-five thousand dollars ($25,000) shall be contracted for and let to the lowest responsible bidder. If two or more bids are the same and the lowest, the governing board may accept the one it chooses. A contract of seventy-five thousand dollars ($75,000) or less may be let by informal bidding procedures, but a contract of more than seventy-five thousand dollars ($75,000) shall be let by formal bidding procedures.

(2) (A) This subdivision shall not apply to contracts for services, including, but not limited to, planning, consulting, legal, or appraisal services, or to contracts for services authorized to be procured pursuant to Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code, if the governing board awards the contract to the most responsible and qualified bidder.

(B) For purposes of this subdivision, “most responsible and qualified bidder” means the bidder deemed by the governing board that best fits the needs of the service contract or meets the criteria prescribed in subparagraph (C).

(C) In determining the most responsible and qualified bidder, the governing board may use criteria, including, but not limited to, all of the following:

(i) Experience of the bidder as a firm, including past performance of the firm on contracts of similar size and scope.

(ii) Experience and qualifications of personnel employed by the bidder.

(iii) Demonstrated understanding of the scope of the service, including schedule and plan to accomplish the service.

(iv) Best overall financial return to the governing board on the contract.

(v) In addition, for purposes of this paragraph, a responsible bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, and experience to satisfactorily perform the work or provide the goods required.

(c) The notice inviting bids shall set a date for the opening of bids. The first publication or posting of the notice shall be at least 10 days before the date of opening the bids. For purposes of contracts requiring formal bidding, notice shall be published at least twice, at least five days apart, in a newspaper of general circulation in the authority, or if there is none, it shall be posted in at least three public places in the authority. The notice shall distinctly state the nature of the contract.

(d) The governing board may reject any bids. If the governing board rejects all bids, it may either readvertise or adopt a resolution, by four-fifths vote, declaring that the contract can be performed more economically by the employees of the authority or obtained at a lower price.
on the open market. Upon adoption of the resolution, the governing board may undertake the project without further complying with subdivisions (b) and (c).

(e) If bids are not received, the governing board may undertake the project without further complying with subdivisions (b) to (d), inclusive.

(f) In the case of an emergency, the governing board may adopt a resolution by a two-thirds vote of all the members of the governing board declaring that the public interest and necessity demand immediate expenditure of public money to safeguard life, health, or property. The governing board may expend any sum required in the emergency without submitting the expenditure to bid. For the purpose of this subdivision, “emergency” means a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services. Emergency includes a fire, flood, earthquake, or other soil or geologic movements, as well as a riot, accident, or sabotage.

SEC. 2. The Legislature finds and declares that, because of the unique circumstances applicable only to the Santa Clara County Open-Space Authority, a statute of general applicability cannot be enacted within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution, therefore, this special statute is necessary.
