

I LOVE NATURE

The more we learn about nature,
the more we love it.

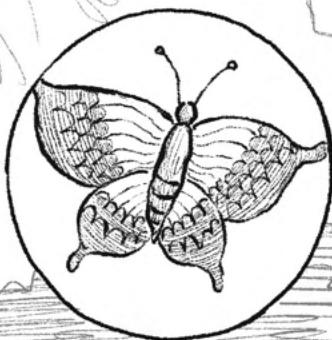

Illustrated by Robert Liu-Trujillo

Bee

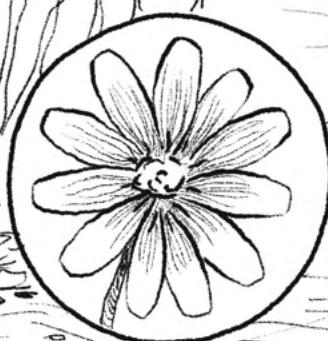

I love pollinators!

Bees and butterflies love bright flowers! Can you color the flowers to help them find their food?

Butterfly

California poppy

Tidy tip

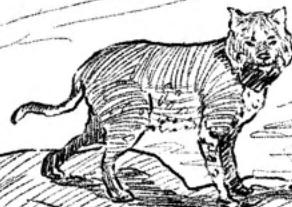

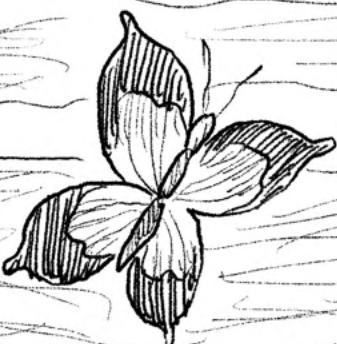

Lupine

I love wildlife!

Wild animals need
open space to roam.
How many animals can
you find?

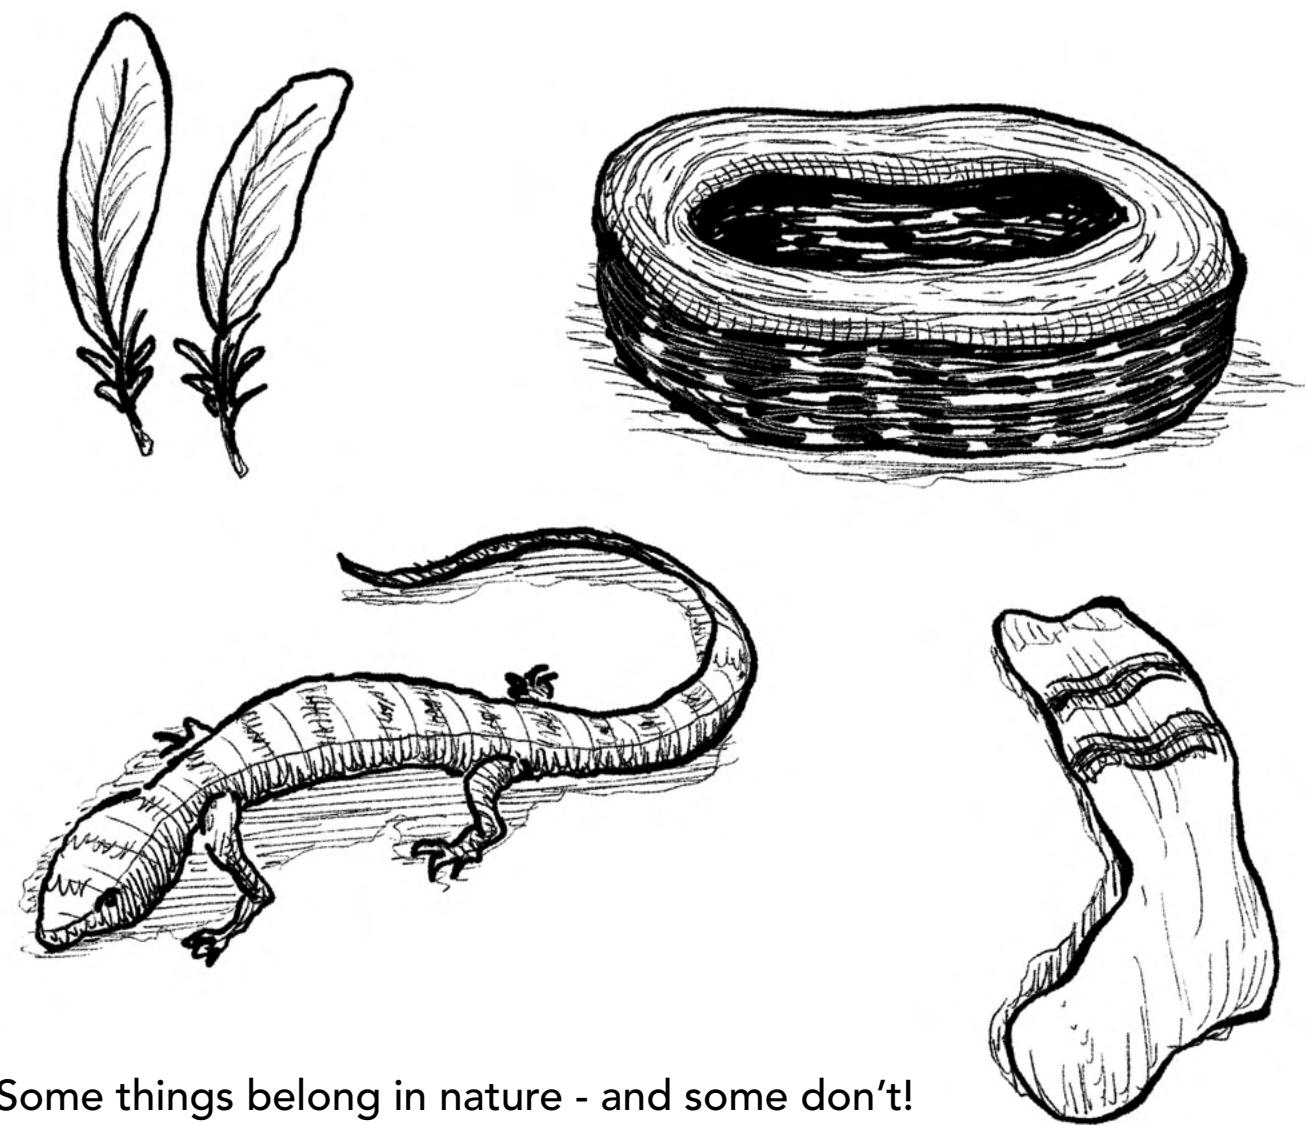

When we all share the trail,
everyone has fun!

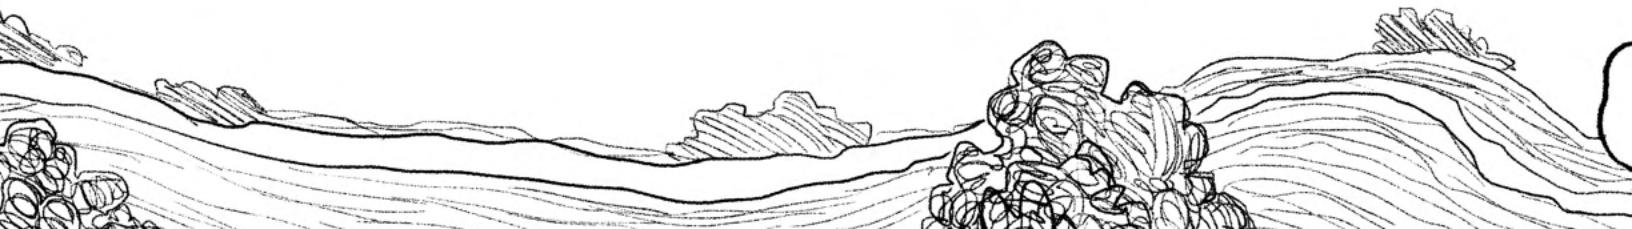

HEART'S DELIGHT
TRAIL

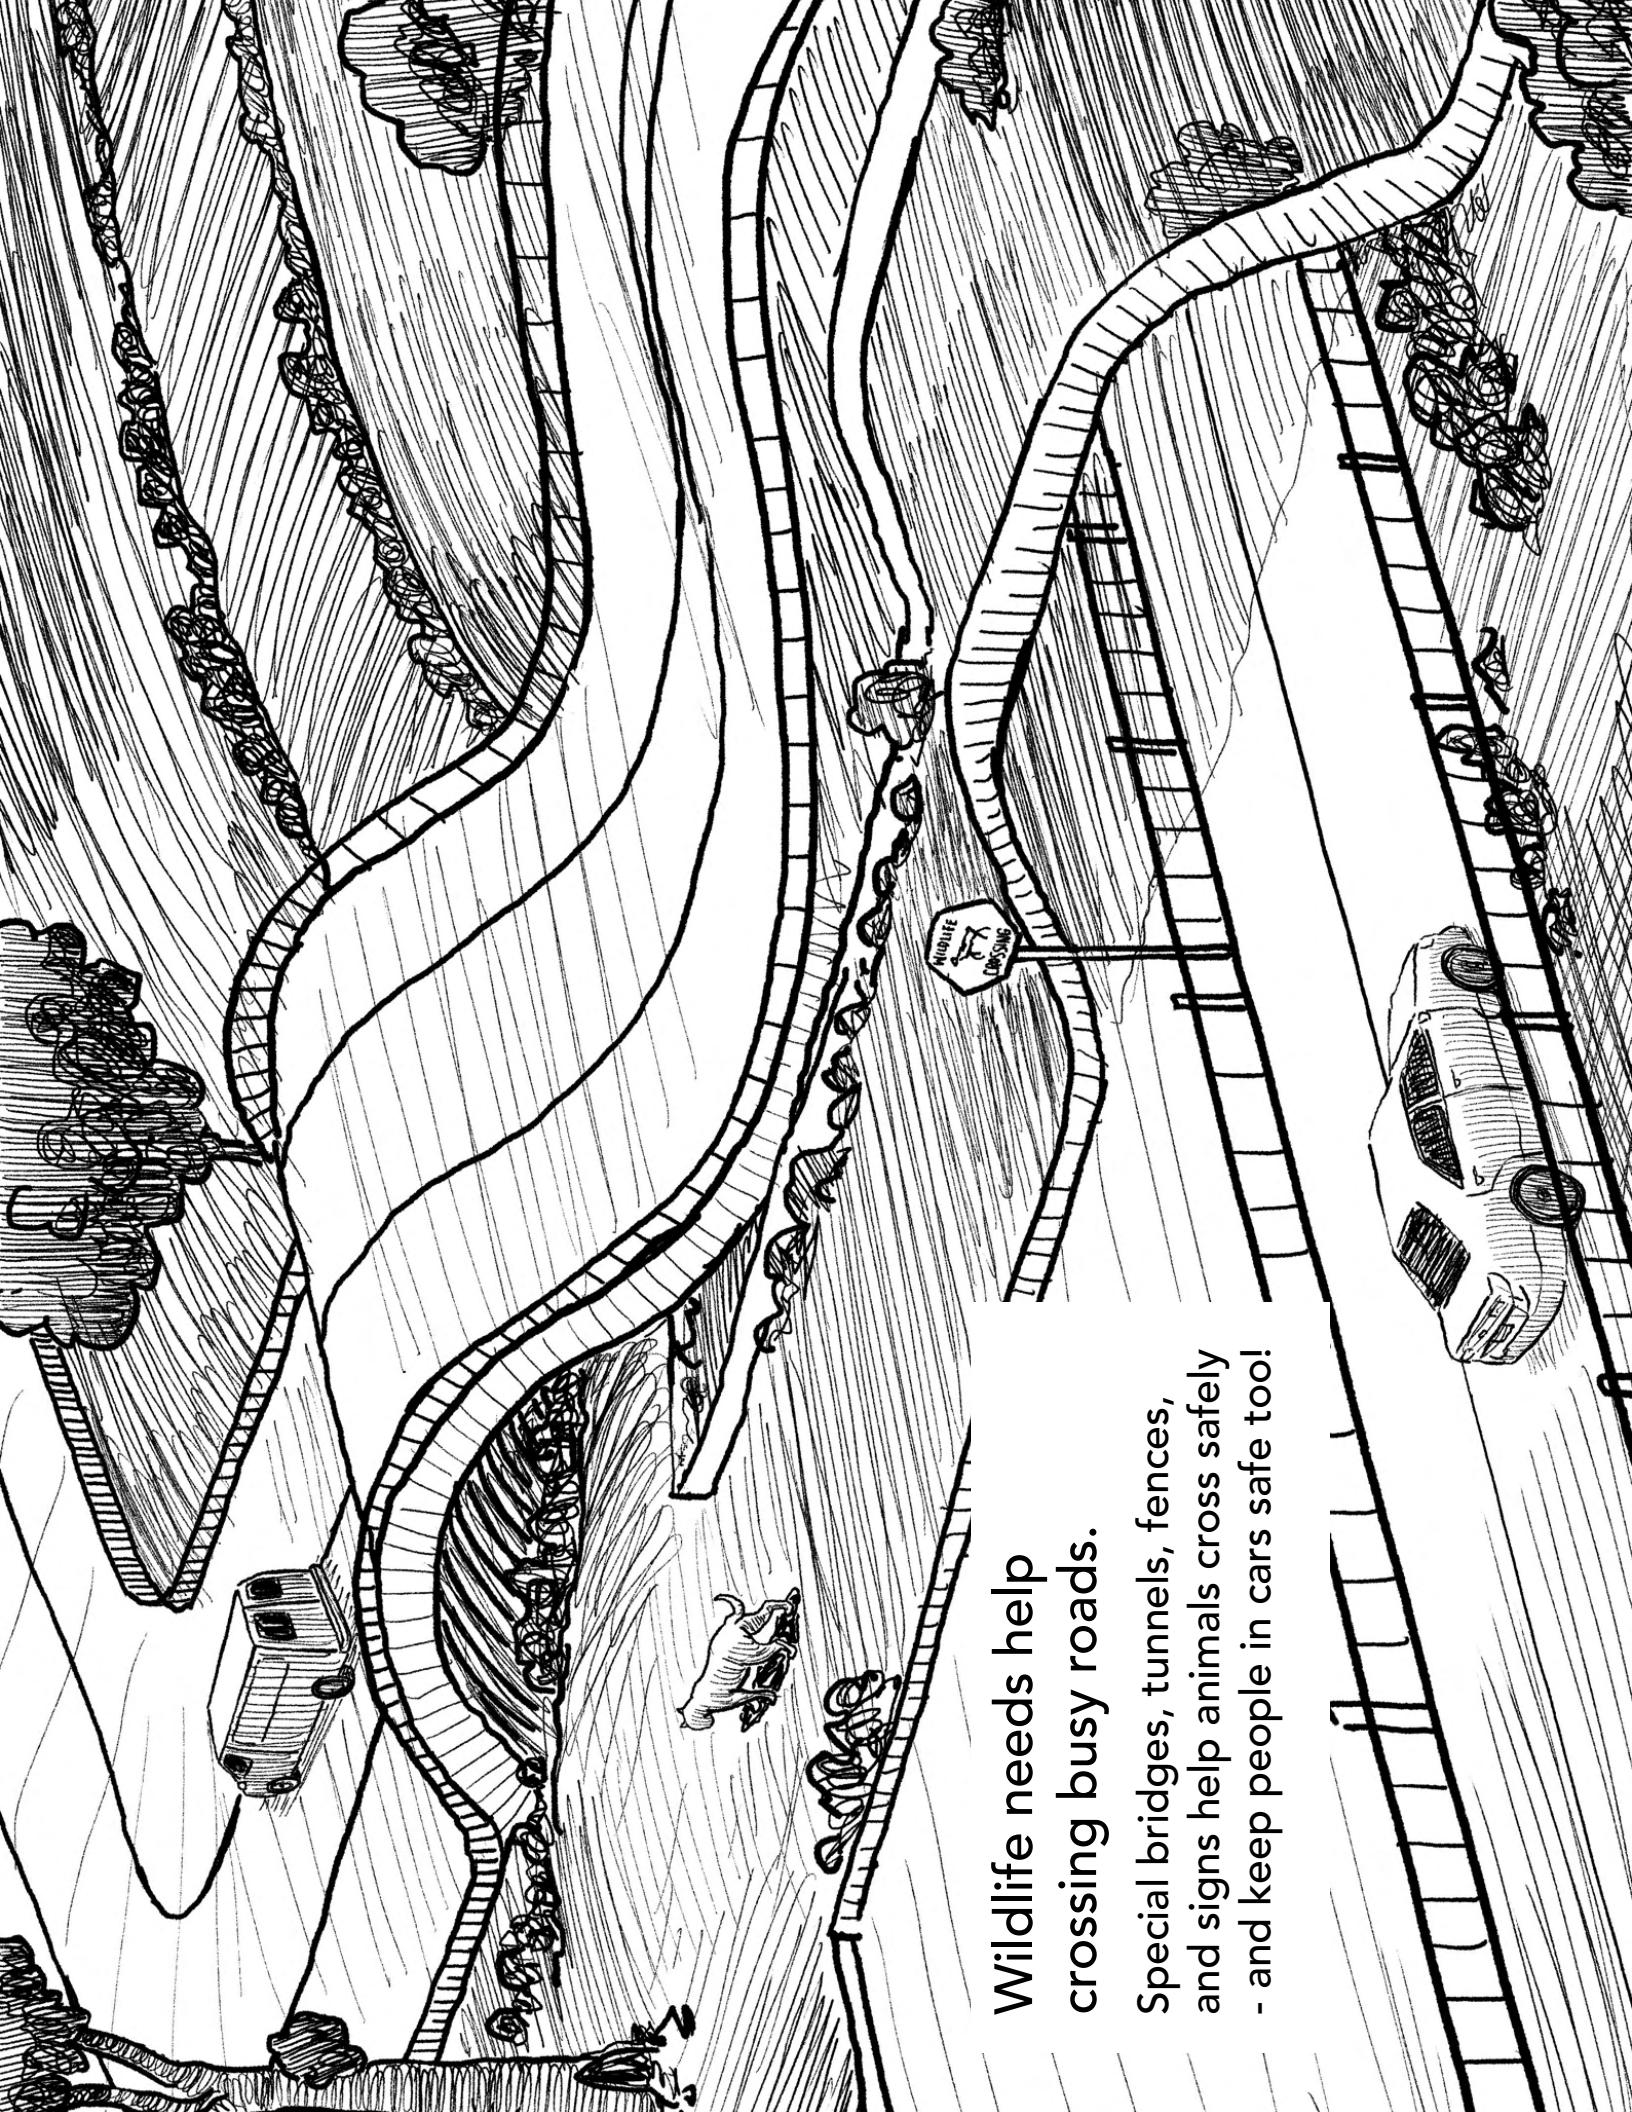

Some things belong in nature - and some don't!
Can you circle what doesn't belong on the trail?

Some things belong in nature - and some don't!
Can you circle what doesn't belong on the trail?

Answers: Chip bag, banana peel, apple core, sock, water bottle, tire.

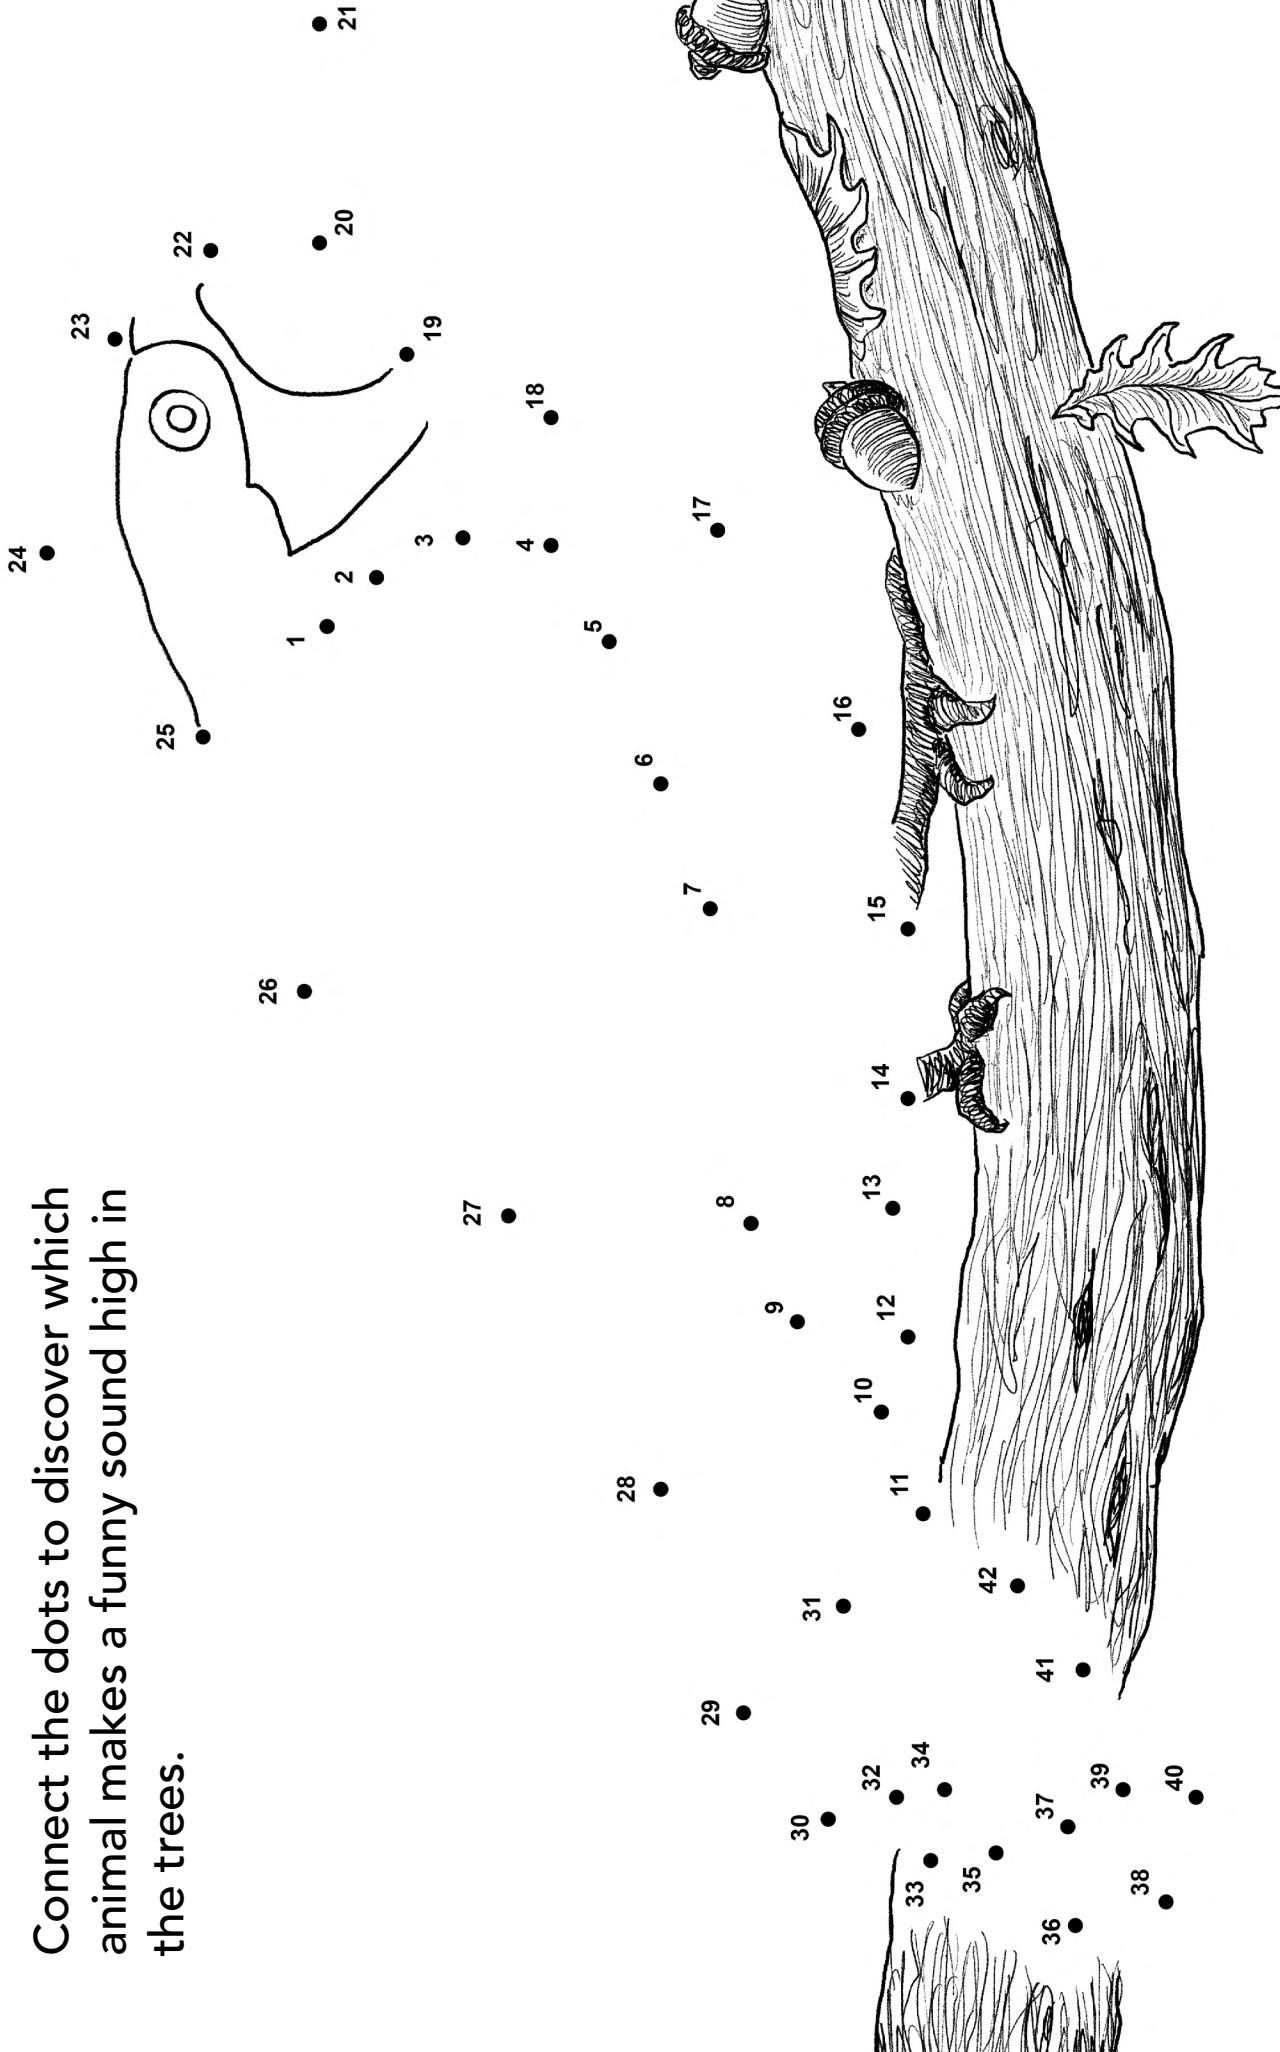

Wildlife needs help
crossing busy roads.

Special bridges, tunnels, fences,
and signs help animals cross safely
- and keep people in cars safe too!

Dot by dot, I love nature a lot!

Connect the dots to discover which animal makes a funny sound high in the trees.

Answers: Acorn woodpecker!

I love animals in my neighborhood!

Draw or write about an animal you've seen recently.

- **What kind** of animal was it? (A bird, a bug, a cat, a raccoon?)
- Where did you **see** it? (Outside your window, on a walk, in a tree?)
- What do you think it was **doing**? (Looking for food, playing, sleeping?)
- Did it make any **sounds** or leave any **tracks**?
- How did you **feel** when you saw it?

Find all of the hidden words.

**Did you know
cows can help
stop wildfires?**

Cows eat grass.
This helps to
prevent fires.

I love how nature helps me!

Nature cares for us in so many ways:

- Clean water
- Fresh air
- Shade
- Homes for animals
- Trails to enjoy
- Fields to grow food

I love my open space preserves!
