INDEPENDENT AUDITOR'S REPORT

Board of Directors
Santa Clara County Open Space Authority
San Jose, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Santa Clara County Open Space Authority (the Authority) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Authority, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2013

The Authority's Management's Discussion and Analysis (MD&A) is designed to (a) assist the reader on focusing on significant financial issues, (b) provide an overview of the Authority's financial activity, (c) identify changes in the Authority's financial position (its ability to address challenges in subsequent years), and (d) identify individual fund issues or concerns.

Since the MD&A is designed to focus on the current year's activities, resulting changes and current known facts, please read it in conjunction with the Authority's basic financial statements.

OVERVIEW OF FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Authority.

The first two statements are government-wide financial statements that provide both short-term and long-term information about the Authority's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Authority, reporting the Authority's operation in more detail than the government-wide statements.

The fund financial statements are composed of:

- Governmental fund statements which tell how basic services were financed in the short term, as well as what remains for future spending.

The Statement of Net Position and Statement of Activities

The Statement of Net Position and Statement of Activities report information about the Authority as a whole and about its activities. These statements include all assets and liabilities of the Authority using the accrual basis of accounting, which is similar to the accounting used by private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Authority's net position as well as changes to the net position. Net position is the difference between assets and liabilities, which is one way to measure the Authority's financial health, or financial position. Over time, increases or decreases in the Authority's net position is one indicator of whether its financial health is improving or deteriorating. To assess the overall health of the Authority, additional non-financial factors including the condition of the Authority's buildings and other facilities are considered.

MANAGEMENT'S DISCUSSION AND ANALYSIS

REPORTING THE AUTHORITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide more detailed information about the Authority's most significant funds; not the Authority as a whole. Funds are accounting devices for the Authority to use to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by law and covenants.
- The Authority establishes other funds to control and manage money for particular purposes or to show that certain revenues have been properly used.

Governmental Funds

The Authority's basic services are reported in governmental funds, which generally focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash, and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of fund information, which helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Authority's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental fund statements that explains the relationship (or differences) between them.

Total net position	<u>\$ 87,716,855</u>	<u>\$ 87,030,706</u>	<u>\$ 686,149</u>

The Authority's net position was \$87,716,855 for the fiscal year ended June 30, 2013. Of this amount, \$31,201,100 was unrestricted. Restricted net position is reported separately to show legal constraints from debt, Board covenants and enabling legislation that limit the Board's ability to use the net position for day-to-day operations. A separate Board-designated reserve established with funds received in conclusion of litigation during fiscal 2009/2010 may be used as of and when the Authority's Board determines appropriate, with no restrictions.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

The Santa Clara County Open Space Authority (the Authority) was created on February 1, 1993 under California Public Resources Code, Section 35100. The purpose of the Authority is to acquire land through fee title and conservation easement for the preservation of open space, creation of a greenbelt, and to encourage agricultural activities, in an effort to counter the continuing and serious conversion of lands to urban uses. The priorities for such acquisitions were set through a public process that included input from members of the public, the Authority's Citizens' Advisory Committee and the cities and county within the Authority's jurisdiction, and culminated in the creation of the Authority's Five-Year Plan.

Basis of Accounting – Measurement Focus

The *basic financial statements* of the Authority are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Government-wide Financial Statements - These statements are presented on an *economic resources* measurement focus and the accrual basis of accounting. Accordingly, all of the Authority's assets and liabilities, including capital assets, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The types of transactions reported as program revenues for the Authority are the special assessments levied upon the parcels within the Authority's boundaries. Investment income and other items not properly included among program revenues are reported instead as general revenues.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

Governmental Fund Financial Statements

These statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds. Incorporated into these statements is a schedule to reconcile and explain the differences in net position as presented in these statements to the net position presented in the Government-wide Financial Statements. The Authority has presented its Assessment District No. 1, Reserve Fund and Endowment Fund as its major funds because they meet the qualifications of GASB Statement No. 34.

Governmental funds are accounted for on a spending or *current financial resources* measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under modified accrual basis of accounting, revenues are recognized in the accounting period in which they become measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual are recognized if these revenues will be collected generally within 60 days after year-end.

The primary sources susceptible to accrual for the Authority are special assessments, interest earnings, investment revenue and operating and capital grant revenues. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. However, exceptions to this rule include principal and interest on debt, which are recognized when due. *Program revenues* include charges for services, which are mainly from property management fees. Other items not properly included among program revenues are reported instead as *general revenues*.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, and then unrestricted resources as they are needed.

The Authority reports the following major governmental funds:

Assessment District No. 1 Fund - is the Authority's primary operating fund. It accounts for all financial resources of the Authority, except those required to be accounted for in another fund when necessary.

Reserve Fund - is the Authority's long term reserve.

Endowment Fund - is the Authority's holding fund for mitigation land management endowments contributed to the Authority. The earnings from endowment funds are used to care for mitigation properties.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

Governmental Fund Balance

In the fund financial statements, governmental funds report fund equity as follows:

Nonspendable Fund Balance - Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted Fund Balance - Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Assigned Fund Balance - Amounts intended to be used by the government for specific purposes but that do not meet the criteria to be classified as restricted or committed.

Unassigned Fund Balance - The residual classification for the government's general fund that includes all amounts not contained in the other classifications.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in the Authority net position during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Substantially all of the Authority's cash is invested in interest bearing accounts. The Authority considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Investments and Investment Policy

The Authority has adopted an investment policy that permits investments in any instrument permitted under the California Government Code Section 53648.

Changes in fair value that occur during a fiscal year are recognized as unrealized gains or losses and reported for that fiscal year. Investment income comprises interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

Benefit Assessment

The Authority utilizes the services of the Santa Clara County Tax Collector's Office to bill and collect the benefit assessment levied by the Authority each year on the property tax bills under the County Teeter Plan. Property tax bills are due on December 10th and April 10th each fiscal year. Therefore, the Authority receives two special assessment revenue payments, at the end of January and June, each year.

Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Capital assets are recorded in the government-wide financial statements. Included in capital assets are land, building, building improvements, equipment, vehicles and furniture and fixtures.

The Authority has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at estimated fair market value at the date of donation. Capital outlay is recorded as expenditures of the Assessment District No. 1 Fund and as assets in the government-wide financial statements to the extent the Authority's capitalization threshold is met. Depreciation expense for the year ended June 30, 2013 was \$91,544. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

- Land improvements 3-50 years
- Furniture and Equipment 3-5 years
- Vehicles 5 years

Compensated Absences

The Authority's personnel policies provide for paid vacation and sick leave (employee benefits) to its employees. Liabilities for vacation leave are recorded when granted up to a maximum of 240 hours. Employees having attained five years of employment are paid one-third of accrued sick leave, up to a 15 day maximum, upon termination of employment.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

Net Position

The financial statements utilize a net position presentation. Net position is categorized as follows:

Net Investment in Capital Assets - This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt outstanding against the acquisition, construction or improvement of those assets.

Restricted Net Position - This component of net position consists of limitations placed on net position used through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position - This component of net position consists of net position that do not meet the definition of *net investment in capital assets* or *restricted*.

Budgets and Budgetary Data

The Authority follows specific procedures in establishing the budgetary data reflected in the financial statements. The Authority's General Manager prepares and submits an operating and capital budget to the Board of Directors no later than June of each year. The basis used to prepare the budget does not differ substantially from the modified accrual basis of accounting.

The adopted budget becomes operative on July 1. The Board of Directors must approve all supplemental appropriations to the budget and transfers between major accounts. The Authority's annual budget is presented as a balanced budget (inflows and reserves equal outflows and reserves) adopted for Assessment District No. 1 at the detailed expenditure-type level.

The Authority presents a comparison of the annual budget to actual results for Assessment District No. 1 at the functional expenditure-type major object level for financial reporting purposes. The budgeted expenditure amounts represent the adopted budget. The budgeted revenue amounts represent the adopted budget as originally approved.

Interfund Transactions

Interfund transactions are reflected as loans, services provided, reimbursements, or transfers. Interfund loans are reported as either "due from/due to other funds."

Services provided, deemed to be at-market or near-market rates, are treated as revenues and expenditures. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its cost as a reimbursement. All other interfund transactions are treated as transfers. All interfund activity is eliminated in the government-wide financial statements.

Custodial Credit

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the Authority's Investment Policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. The Authority had no deposits account that was not federally insured and therefore was not exposed to deposit custodial credit risk.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Authority's Investment Policy contain legal and policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as SCCTCP).

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The longer the maturity an investment has the greater its fair value has sensitivity to changes in market interest rates. The Authority's investment policy follows the California Government Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization; however, the Santa Clara County treasury and the State investment pools were not rated as of June 30, 2013.

Concentration of Credit Risk

The Authority's Investment Policy contains various limitations on the amounts that can be invested in any one governmental agency or non-governmental issuer as stipulated by the California Government Code. The Authority's deposit portfolio with governmental agencies with the Santa Clara County Treasurer's Pool (Pool) is 96.4% of the Authority's total depository and investment portfolio. There were no investments in any one non-governmental issuer that represent 5% or more of the Authority's total investments.

The Authority has contracted with the Santa Clara County Treasurer's Office to pool its available cash with that of the Pool. The Pool is used essentially as a demand deposit account by governmental entities that participate in the Santa Clara County Treasurer's Pool. The Authority defines cash and cash equivalents as cash and cash equivalents held within the Pool. The Santa Clara County Treasurer's Office makes all investment decisions for the Pool.

Interest income and realized gains and losses arising from such pooled cash and cash equivalents is apportioned to each participating fund balance on the relationship of the individual fund's average daily cash balances to the aggregate pooled cash and cash equivalents. The Authority's share of pooled cash and cash equivalents is stated at a modified fair-value by the County of Santa Clara.

NOTE 4 - COMPENSATED ABSENCES

The Authority's policy is to permit employees to accumulate earned vacation. The liability for vested vacation and sick leave is recorded as an expense when earned. Upon termination or retirement, employees are entitled to receive compensation at their current base salary for all unused vacation. At June 30, 2013, the total balance of unused vacation time was \$83,577.

Changes in compensated absences for the year were as follows:

NOTE 5 – FUNDING PROGRAM LIABILITY

The 20% funding program was established to assist participating jurisdictions with their own open space programs. The Five-Year Plan defines participating jurisdictions to consist of the cities of Campbell, Milpitas, Morgan Hill, San Jose, Santa Clara, and the unincorporated areas of Santa Clara County not within the Midpeninsula Regional Open Space Authority's boundaries. The program is funded with 20% of the Authority's capital fund expenditures; the primary objective of which is for the acquisition of open space in urban areas. Recognizing that opportunities for land acquisition is limited or unavailable within urban areas, funds may be used for environmental restoration and/or site development projects that provide or enhance open space.

The liability as of June 30, 2013 is as follows:

	Ending Balance		Project	Ending Balance
Government Agency	6/30/2012	Additions	Completion Distributions	6/30/2013
City of Campbell	\$ 11,965	\$ 6,086	\$ -	\$ 18,051

NOTE 6 - DEFINED BENEFIT PENSION BALANCE

Plan Description

The Authority's defined benefit pension plan, the California Public Employees Retirement System, provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. The California Public Employees' Retirement System (CalPERS), is a cost sharing multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employees' Retirement Law. The Authority selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance (other local methods). CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95811.

Funding Policy

The contribution rate for plan members in the CalPERS 2.0% at 55 Risk Pool Retirement Plan is 7% of their annual covered compensation. The Authority makes these contributions required of Authority employees on their behalf and for their account. The Authority does not participate in Social Security (OASDI) for those employees who participate in CalPERS. The Authority is also required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year June 30, 2013 was 9.929%. The contribution requirements of the plan members are established by state statute and the employer contribution rate is established and may be amended by CalPERS.

Annual Pension Cost

For fiscal year June 30, 2013, the Authority's annual pension cost of \$241,122 was equal to the Authority's required and actual contributions. The required contribution for the fiscal year June 30, 2013 was determined as part of the June 30, 2011 actuarial valuation using entry age normal actuarial cost method with contributions determined as a percent of pay. The actuarial assumptions included (a) 7.75% investment rate of return (net of administrative expenses); (b) projected salary increases that vary by duration of service ranging from 3.55% to 14.45% depending on age, service and type of employment; (c) 3.25% overall payroll growth; and (d) an inflation rate of 3.0%. The remaining amortization period at June 30, 2011, was 20 years for miscellaneous as of the valuation date.

Three-Year Trend Information for the Authority:

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contribution	Net Pension Obligation
6/30/2013	\$ 142,434	100%	\$ -
6/30/2012	123,183	100%	-
6/30/2011	123,260	100%	-

NOTE 7 – RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority is a member of the Special District Risk Management Authority (SDRMA). As of June 30, 2013, the Authority participated in the workers compensation program of the SDRMA as follows:

Workers compensation coverage and employer's liability up to \$100 million per occurrence for workers compensation and \$5 million for employer's liability coverage, subject to the terms, conditions and exclusions as provided in the Memorandum of Coverage.

SANTA CLARA COUNTY OPEN SPACE AUTHORITY

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013

The Authority has purchased additional insurance with a private insurance carrier to cover potential loss from various identified risks including loss related to torts, theft of, damage to and destruction of assets; errors and omissions, and natural disasters. Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the Authority's insurance coverage during the current year. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage.

NOTE 8 - COMMITMENTS

Facilities Lease

The Authority's facilities are leased under an operating lease. In 2008, the Authority moved and entered into a long-term (5-year) lease for new facilities commencing in June of 2008 and expiring May 30, 2013. On February 28, 2013 the agreement was modified to extend until June 30, 2015. Rent expense for the year ended June 30, 2013 amounted to \$101,975. Future minimum rental payments required under the Authority's 5-year operating lease as of June 30 is summarized below:

Fiscal Year			Amount
2014			\$ 87,978
2015			90,816
	Total		\$ 178,794

In 2001 the Authority leased office space under an operating lease for the land management office. The current lease runs from October 2010 through September 2013. Rent expense for the year ended June 30, 2013 was \$34,800. Future minimum rental payments required under the Authority's operating lease in excess of one year as of June 30, 2013 are summarized below:

Fiscal Year			Amount
2014			\$ 8,700
	Total		\$ 8,700
