Robert Siudzinski

City of Campbell

Acting Parks Supervisor

The City of Campbell plays a part in managing, conserving, promoting, and expanding, the urban forest of Santa Clara Valley. Campbell trims, plants, promotes plant health care, irrigates and discusses tree issues with residents. I am in the role of Acting Parks Supervisor and Arborist.

The City of Campbell supports the stated purpose and function of the Santa Clara Valley Urban Forestry Alliance and associated outreach. As we are able to, the City of Campbell, intends to participate in the Alliance and associated outreach and believe that there is significant value in organizing stakeholders to maximize resources and in increasing public awareness.

The City of Campbell supports the County of Santa Clara's grant request, as this would provide the opportunity to create an organization with permanent positive impacts on urban forestry in Santa Clara Valley and increased public support for urban forestry.

Sincerely,

Robert Siudzinski

City of Campbell Acting Parks Supervisor and Arborist

70 North First St.

Campbell, Ca 95008
