To Whom It May Concern,

The purpose of this letter is to confirm that Earth Island Institute a California non-profit 501(c)(3) corporation has been the fiscal sponsor of Bay Area Wilderness Training since 1999. Earth Island Institute provides fiscal oversight, administrative services, training and technical assistance to our sponsored projects.

Earth Island Institute incorporates, supports and promotes activists working on diverse environmental projects around the world. As an alternative to dozens of separate nonprofits each duplicating basic administrative functions, EII encompasses a network of almost 80 grassroots campaigns, each functioning with programmatic autonomy while sharing administrative resources and benefiting from a synergetic exchange of experience, ideas and energy. In addition, through promotion and membership development, EII is able to assist projects with outreach and to offer the general public avenues for citizen activism. The result is a powerful community of members, volunteers, and staff working towards a sustainable future.

We welcome questions that you may have about our sponsorship model in general, or our sponsorship of the Bay Area Wilderness Training in particular. Please feel free to contact me at 510-859-9107 or skamprath@earthisland.org. For specific information about Bay Area Wilderness Training program content, I encourage you to directly contact Project Director Scott Wolland at 510-452-2298 ext. 302.

Sincerely,

Susan Kamprath
Director of Operations
Earth Island Institute
