Hello Vince,

If you could provide us with any clarification before this Wednesday a.m. of the possibility of space in one of Core Companies properties for some of our instructional activities for MAP (Mindful Aging Project for elder immigrants), perhaps, on a once or twice a month basis for elder immigrants in the first phase, for which we are seeking funding from Open Space Authority (OSA) for the MAP project, it would be greatly appreciated. Ideally, since some of our classes will include nutrition and cooking instruction, classroom space in one of your Core Companies facilities, with access to a kitchen, would be ideal for this first phase of MAP activities.

Thank you so much.

Karita Hummer

Hi Karita,

Yes, Core is committed to working with you to get the first phase of the MAP up and running. My understanding is that you should hear back from the Open Space Authority on your funding request in the Fall and the first phase wouldn't start until some time in 2021 if I understand correctly. If meeting space is required at one of our properties to help support your efforts I'm sure something can be arranged provided any meeting restrictions related to the pandemic (social distancing, covered faces, etc) are addressed.

Thanks,

Vince

Hello Vince,

This is so good of you to respond so positively to helping us achieve our goals for the first phase of MAP (Mindful Aging Project for elder immigrants).

The timeline for our First Phase is exactly correct and, of course, we would be fully committed to following all COVID-19 guidelines for any aprt of our project implementation.

Thank you so much for your help.

Karita Hummer
