PERMIT CONDITIONS

Initial Here: RDT PERMIT CONDITIONS

The general conditions below, as well as any Restrictions or Special Conditions for the permitted event specified above, shall apply and are conditions of the Permit.

The purpose of the OSA is to acquire and preserve open space land; protect and restore the natural environment; and provide opportunities for ecologically sensitive public enjoyment and education. Events or activities must not adversely impact natural resources. The ability of individuals and small groups to access and enjoy the peace and solitude of open space areas must be maintained.

Initial Here: RDT GENERAL PERMIT CONDITIONS

Events must not be advertised in advance of a signed permit being obtained from the OSA. Permittee is solely responsible for any consequences of pre-advertising an event in advance of obtaining a permit, and the Permittee's pre-advertising will not be considered the OSA's decision regarding the issuance of a permit. Permittee is solely liable for any injury to persons or property occurring as a result of such pre-advertising.

Copies of all fliers, brochures and other materials used to advertise the event shall be provided to the OSA at least four (4) weeks in advance of the event.

Permittee must provide the OSA with a cellular telephone number or other contact where a responsible person can be reached on the day of the event, and during the event, should the OSA have the need to contact event organizers.

Permittee understands that a permit issued by the OSA is only valid for access and use of the OSA lands specified in this Permit. Permission to access and use any adjacent private land, or land controlled by another government agency, must be obtained from the appropriate owner or land manager.

Permittee shall comply with all permit conditions, as well as federal, state, local and OSA laws, regulations and ordinances.

Permittee shall immediately comply with any instructions from OSA Staff members prior to and during the event.

Cones or flags may be used to mark trails. Paint, chalk, flour or anything similar may not be used. These substances are harmful to wildlife.

Signs may not be attached or mounted on OSA signs, fences, gates or trees.

Monitors maybe required at specified trail junctions, based upon the OSA's review of the Permittee's application. This will be noted above under Restrictions or Special Conditions.

Permittee must provide at least one person certified in Standard First Aid (or higher) and Cardio-Pulmonary Resuscitation, and provide the name and certification of that person to the OSA.

Permittee is responsible for site clean-up and removal of all litter immediately after the event. In the event that OSA Staff must cleanup or remove litter or repair any damage to OSA property or natural resources, Permittee will be charged for such Staff time.
